

I have known Dr. Kenneth Akey for over 30 years, having worked with him on a very busy labor and delivery unit in Orange County, California. I knew that he was the ONLY pediatrician for my sweet firstborn! Since that time, all four of my now-adult children have seen him on a regular basis. We all adore him! He is kind, gentle and deals with each child as an individual. They LOVED seeing him and he made our times of illness so much easier to bear. He listened to me respectfully about what had been going on, and I always felt he was there for us. His natural approach to his practice is such a breath of fresh air! I cannot say enough about how grateful I am that he walked those years of parenting with us! He is the BEST!!
